Summary

- B.Tech Computer Science student with hands-on experience in NetSuite ERP implementation, Suite Script (2.x), Java, and JavaScript. Skilled in ERP configuration, financial reporting, manufacturing module setup, and business process automation. Strong understanding of P2P, O2C and inventory workflows with practical implementation experience.

Education

B.Tech – Computer Science & Engineering

University of Engineering and Management, Jaipur | CGPA: 7.7 | Graduation: 2026

NetSuite Training – Chetu Inc.

- Developed Suite Script 2.x components including client scripts, user events, scheduled scripts and map/reduce functions.
- Developed reports using saved searches, dashboards and financial report builder to enhance data visibility.
- ERP Setup: Configuration, Subsidiaries & Periods.
- Financials: COA, P&L Balance Sheets & Journal Entries.
- Managed master data including vendor and customer records, executed CSV data migration and performed data cleansing.
- Oversaw P2P cycle including requisitions, purchase orders, receipts, and vendor bills to ensure smooth transaction flow.
- O2C Cycle: Estimates, Sales Orders (SO), Fulfillment, Invoicing, & Payments.
- Inventory: Item Records, Price Levels, Bin Management & Transfer Orders (TO).

Project

- Manufacturing Company- NetSuite Practice Implementation
- BOM & Routing: Create Bill of Materials (components) and Work Centers (machinery/labor) for assembly.
- Work Orders: Trigger a Work Order from a Sales Order (SO) to start the production process.
- Component Issue: Deduct raw materials from stock and move them into Work-In-Process (WIP).
- Assembly Build: Complete the production to convert components into a Finished Good item.
- Full Cycle: Execute SO → Work Order → Component Issue → Assembly Build → Fulfillment → Invoice.
- Track Production Variance (planned vs. actual cost) and WIP Reports for live floor status.

Technical Skills

- NetSuite ERP | Suite Script 2.x | JavaScript | Java | HTML/CSS
